All denominators use U.S. Census data from 2000.

U.S. Totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

2a Tennessee operates under a CMS Medicaid waiver program, TennCare, to provide medically necessary health care services to individuals that are Medicaid eligible and others who meet specific criteria as uninsured and uninsurable. The behavioral health care component of TennCare is the TennCare Partners Program, which provides clinical mental health and substance abuse services. Data from other non-clinical programs contracted with the State Mental Health Authority, CMHS block grant, and other federal dollars are not included in this table. For FY02, all data contained in this table is limited to persons receiving services through the TennCare Partners Program. Table does not include an additional 85 persons served of unknown age or sex.

Beginning with the FY 2003 survey, being administered in Dec. 2002, we are using the MHSIP Adult and Child/Adolescent surveys. Tennessee operates under a CMS Medicaid waiver program, TennCare, to provide medically necessary health care services to individuals that are Medicaid eligible and others who meet specific criteria as uninsured and uninsurable. The behavioral health care component of TennCare is the TennCare Partners Program, which provides clinical mental health and substance abuse services. Data from other non-clinical programs contracted with the State Mental Health Authority, CMHS block grant, and other federal dollars are not included in this table. For FY02, all data contained in this table is limited to persons receiving services through the TennCare Partners Program.

State Notes:

Each state is unique in what expenditures take place in the state mental health authority. For this reason comparison of state mental health authority expenditures in this report describe very little without in-depth knowledge of the compared states' mental health funding systems. Community providers do not report expenditures and revenue for private byers to the State of Tennessee. Amounts on these reports attempt to show comparable expenditures in FY2001 with amounts reported in FY1993 and FY1996. These amounts include all funds within the control of SMHA and the estimated amount of expenditures of the BHOs to the CMHCs. Less than half of the \$159 million dollar increase shown on the tables from FY1997 to FY2001 in program expenditures is a true increase in funding. The remaining increase is attributable to increased usage of the CMHCs by the BHOs. These amounts are not all within the control of the state mental health authority. The amounts do not represent all government expenditures for mental health services in Tennessee.
